

# THE CHEQUERS CIRCULAR WALK

(This will take you approximately 1¼ hours depending on conditions and your level of fitness)

Start your walk from the Chequers Inn garden through the Ramblers 50-year celebratory gate. (1) Turn left and continue along the new permissive footpath.

Pass through two more Rambler's named kissing gates and follow the path up and over the top of the hill.

Pass a house painted white on your left and join footpath GL6 between two oak trees.

(2) Turn right and follow the path until you join the main road.

(3) Turn left and walk along the pavement for approx. 700 yards. Just after the junction with Niton Road, turn left up a stony track, Bunkers Lane (4).

After the houses, continue through Bunkers Copse and beyond. Where the track bends sharp right (there is a notice "Private no Right of Way") (5) turn left through a gate.

Go downhill, along the field edge, with the fence/hedge on your right. Go over the double stile at the bottom and cross the narrow field to the footbridge with two stiles (6).

Then cross the field half right towards distant farm buildings to a stile by a farm gate beneath a tree. Walk straight ahead up to the group of buildings at Loverstone Farm (7).

Turn left and follow the road for about half a mile. Immediately after it bears right, turn left down the lane towards Cridmore (8).

Just after the lane bends to the left, turn right down a track G18 between hedges.

Go through a kissing gate and continue straight ahead across the field (you may need to avoid a marshy area) to a stile and foot bridge. (9)

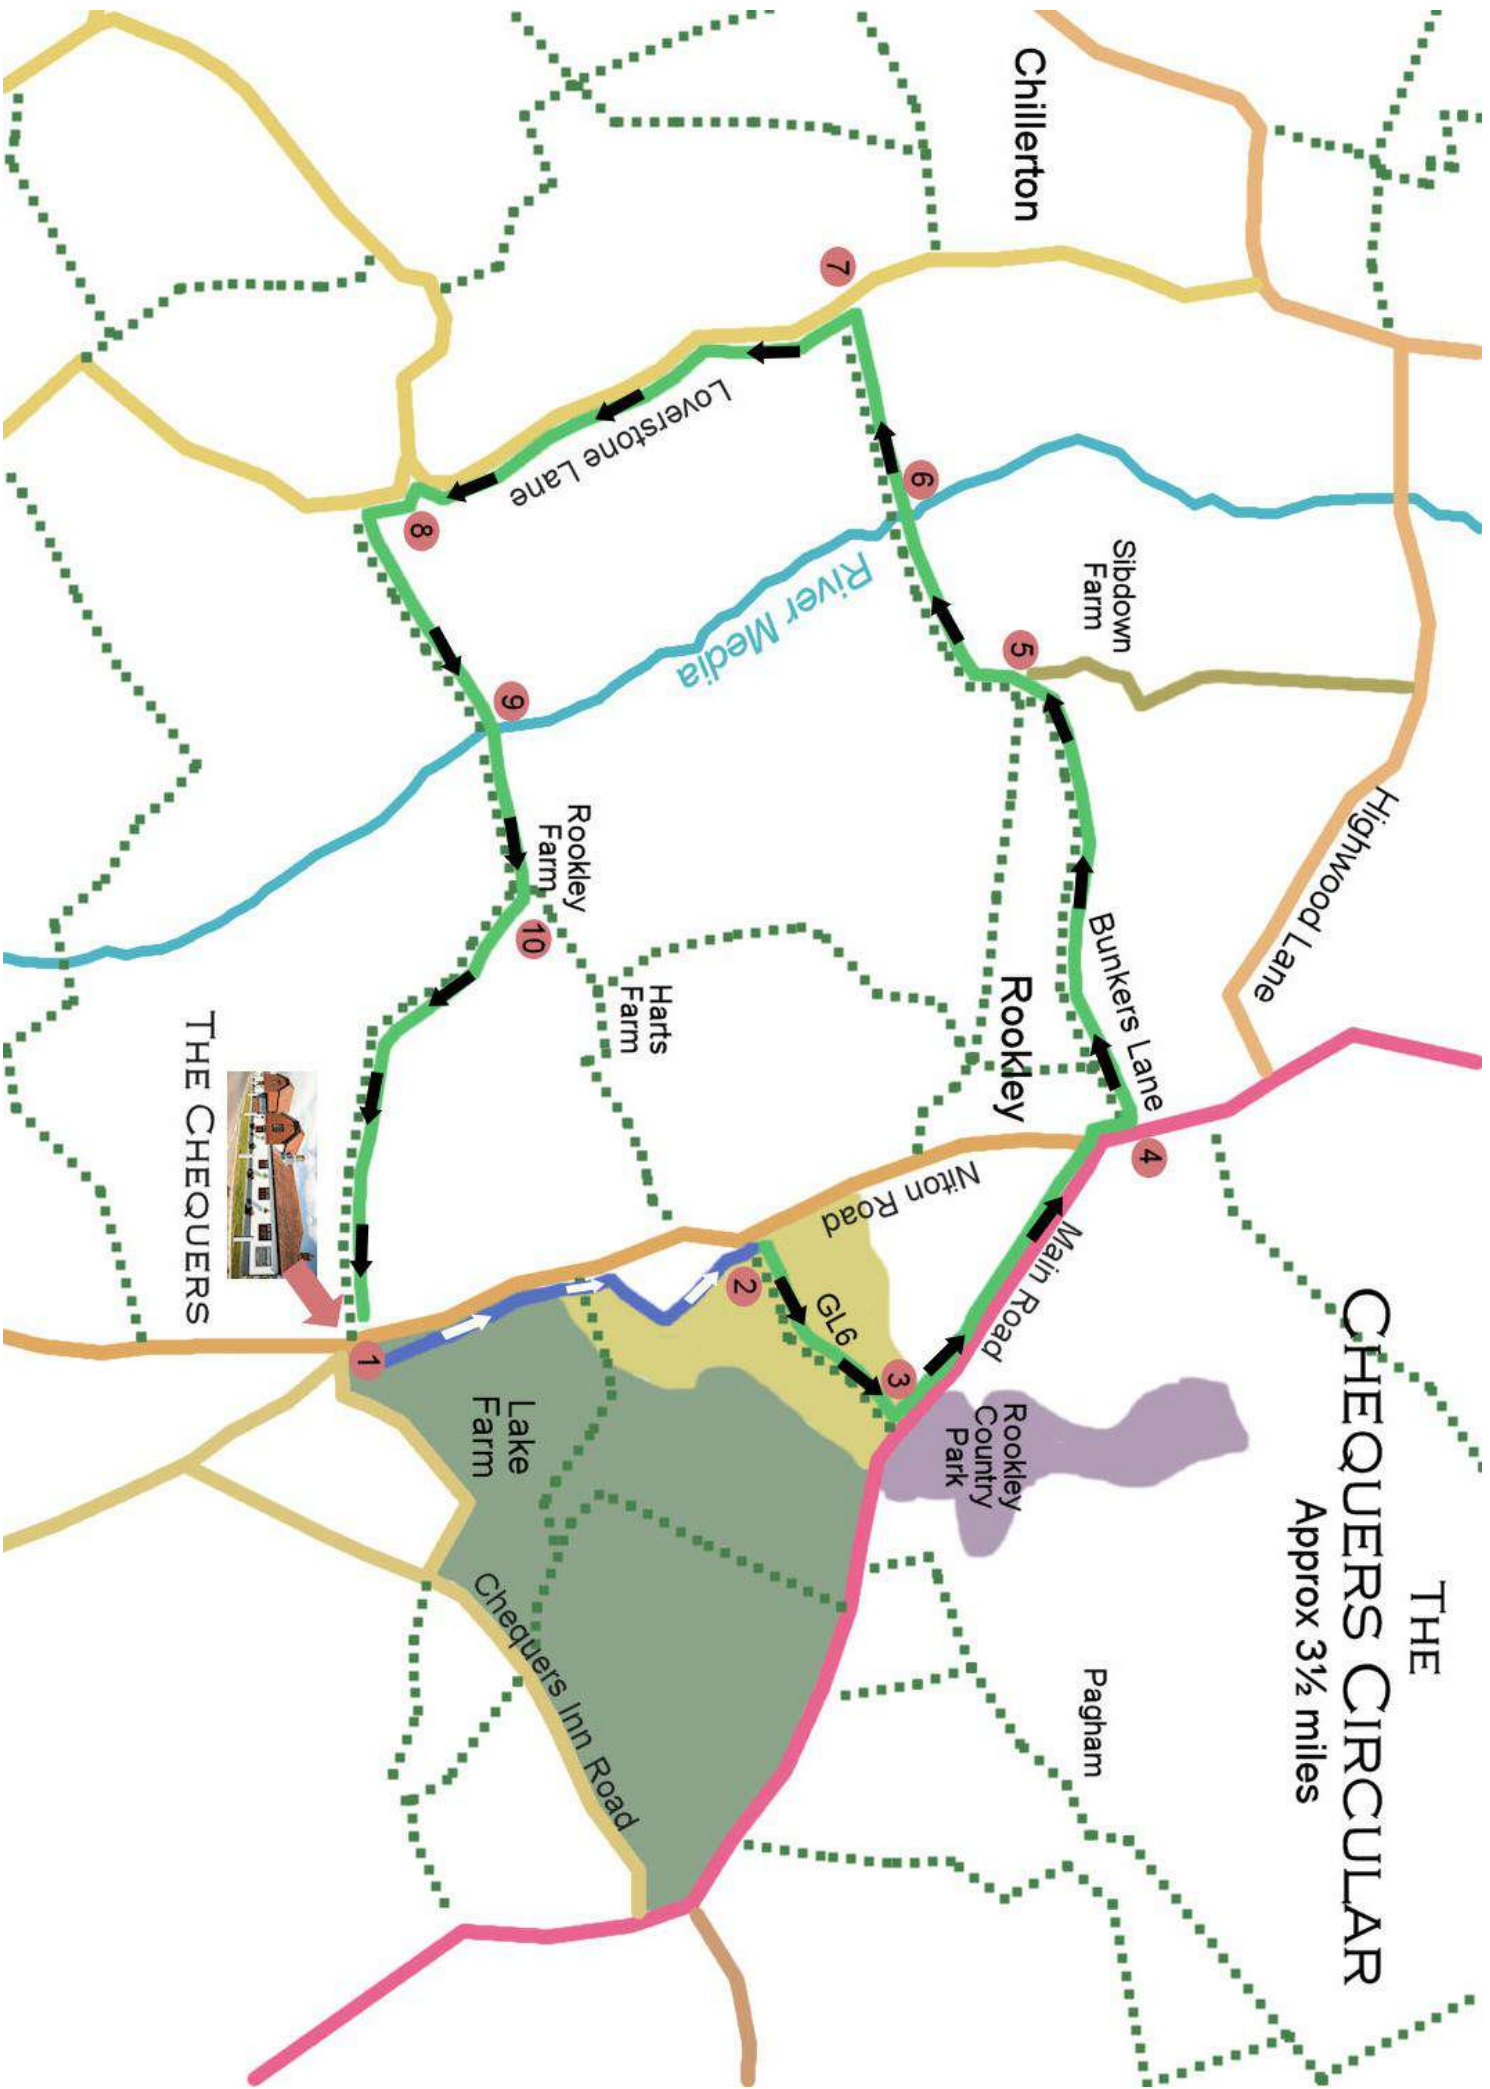

Continue towards Rookley Farm (10)

Walk up the farm lane to the road. Carefully cross the road. Enter the Chequers Inn and buy a well-deserved pint.
